

Questions about [GROUP]'s book

What is it?

A 48 page coloring and activity book with **[GROUP]** on the cover. A real printed book with a spine, not a stapled packet. Every page came from this group: the gear, the place, the things they do every week.

Inside: coloring pages, word searches, mazes, crosswords, sudoku, color by number, spot the difference, and pages to draw your own. Answer keys in the back.

Buying

Can I buy more than one?

Yes, and please do. They make good gifts for grandparents, and several at once costs less to ship than one at a time.

Is it tax deductible?

Probably not, since you are buying a product rather than donating. Ask your tax preparer if it matters to you.

When will I get it?

About three weeks after orders close, so around **[DATE]**. A custom book takes longer than pulling one off a shelf.

Where do I pick it up?

[WHERE, or: it ships to your door]

Anyone can buy one, not just people in the group, and the group earns the same either way. Forwarding the link to one person outside the group is the single most useful thing you can do. That is where the unexpected orders come from.

Money

How much is it? **[\$]**

Goes to the group **[\$]** per book

Orders close **[DATE]**

Can I pay cash? **[YES / online only]**

The group does not keep the whole price.

The rest covers printing, shipping and card fees. What the group keeps is the number above, and it is a bigger share than most fundraisers pay.

What if something is wrong with it?

Tell **[NAME]**. A damaged or misprinted book gets replaced.

The book

Did the kids draw these pages?

No. Page Raisers drew them, using what the group told them about itself. Nobody had to collect artwork from families.

Are there photos or names of children in it?

No photos of children appear anywhere in it. No child's name is printed without written permission from that child's parent.

What age is it for?

Everyone. The coloring pages have thick, clean lines that work for small hands, and the crosswords and sudoku are aimed at adults.
